

## SPEED Mobile DTV

SPEED is the one-stop solution from testing and evaluation to full commercial service.

The Speed Mobile DTV solution consists of Mobile DTV Encoders, ESG Flute Server, Multiplexer for Mobile streaming, and Exciter fully compliant with the A/153 standard. You will get all you need to put your valuable content in your customers' hand. Speed Mobile DTV gives you the chance to boost your content, reaching your customers anywhere thus increasing revenues.

The system is built to satisfy the broadcasters priorities: ATSC Legacy backward compatibility and easy-to-use plug-and-play nature.
